

APOLOGETICS RESEARCH SOCIETY

Certificate in Christian Apologetics Program

Dates: Saturday October 18, **and** Saturday October 25, 2008

Time: 9:00 AM - 3:00 PM

SCIENCE AND CHRISTIAN APOLOGETICS

The board of ARS is excited to announce a certificate program in Christian Apologetics. The classes will be offered by DVD. To create the DVDs, each class will be offered live once by the teacher of the class. The second of the eight classes to be offered is Science and Christian Apologetics.

Topics to be covered include: What is Science and What Questions Can Science Answer: The Limits of Science; The Age of the Earth, Evolution, Science and Genesis, Science and the Existence of God; The Anthropic Principle/Intelligent Design; Science and the Bible; Science and Other Religions.

Peter advises us to "Always be prepared to give an answer to anyone who asks you to give the reason for the hope you have." Many ask questions about science and Christianity, yet most of us do not know how to answer these questions. This class will give you a solid background in areas of overlap between science and Christian faith.

Required readings in order to receive credit: Is There a God, by John M. Oakes, Optional reading: Extra Credit for reading any reasonable book on the topic of Science God and Christianity upon approval of the instructor: Book is available at www.ipibooks.com or by contacting Jan Oakes.

This course will involve 2 days of teaching. To receive credit for the class, there will be assigned readings and a paper to be submitted, as well as an exam. Students who want to simply audit the class are definitely invited. The cost of the two-part series is \$30 per student. If you can only make one session, the cost will be \$20. Lunch is included. To register, contact Jan Oakes joakes01@san.rr.com
